

dovehouse
hospice

caring for people with a life limiting illness

Interactive Workshop: The patient is not settled...

Issues around confusion, agitation, delirium and sedation

Date: Tuesday 7th September 2010

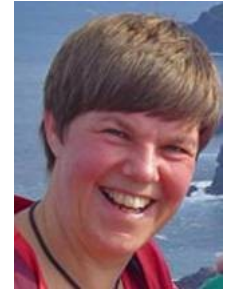

Time: 6.30pm to 9.00pm

Fee: £10 (includes buffet & refreshments)

Facilitator: Dr Lia van der Plaats

Clinical Assistant

Dove House Hospice

Location: Dove House Hospice

Dr Lia van der Plaats was born in the Netherlands. At the moment she works as a Speciality Doctor in Palliative Medicine at Dove House Hospice. Before she came to the UK 6 years ago she worked in General Practice for 15 years and developed an interest in Palliative Medicine during those years. She was actively involved in developing a Hospice in the South of the Netherlands. During her postgraduate training in Palliative Medicine she was invited to provide the medical lead in this hospice. She was a lecturer in Palliative Medicine at the University of Maastricht and she feels passionate about teaching and training. Her holistic approach is very much patient and family focused and she believes strongly in team work within and across the organisation. Her motto is: 'to make a difference for this patient and their loved ones at this time of their illness'. Areas of interest: Psychosocial –Spiritual issues and how these issues influence symptom management.

6.30pm	Refreshments / Registration
7.00pm	Workshop
9.00pm	Close

Interactive case studies will explore reasons for agitation and restlessness. A holistic approach will underpin the content of this workshop.

If you have an interesting case that would be suitable to be discussed please don't hesitate to contact Dr Lia van der Plaats on 01482-785721 or education@dovehouse.org.uk
